I have altered the sentence about the Jubbie murder case. The most careful enquiries leave the impression on one's mind that the teachers buried are the real perpetrators of the crime and the judicial conclusion is otherwise and our report should be based on words which do not throw any reflection on the Chief Court

made for the elements of uncertainty involved in the standards usually adopted for appraising these results. Thus;

The percentage of Police cases ending in conviction to cases investigated	fell from 53.4 in 01-02 to 47.5 in 02-03
The percentage of cases ending in conviction to cases decided....	fell from 79.7 to 74.7
The percentage of persons convicted to those tried	fell from 70.4 to 65.9
The percentage of cases in which property was recovered to those in which it was lost	fell from 78.7 to 71.1
The percentage of property recovered to property lost.....	fell from 45.6 to 35.4

To some extent, the disparity between the percentage of property lost and that recovered is, as stated by the Inspector- General, affected by the exaggerated value given to the Police by the complainants of the property lost, as possibly in the case of property stolen from the Murgi Mutt while the Swamy was stopping at Davangere.

Entering into details the percentage of convictions to cases decided was better as regards murder (54.05 against 48.8), kidnapping (46.1 against 25.0), and dacoity (66.6 against 45.1), but not so good in respect of robbery (66.6 against 78.9), house-breaking (71.9 against 74.6), and theft (75.02 against 80.7).

Among the important cases of the

Letter No.2503/143 dated the 31st October 1903, from the Inspector General of Police in Mysore, submitting the report on the administration of the Police in the State for the Official year 1902-03.

11/6/04. Order thereon. No. 2673-81 J.

The report was submitted to Government in manuscript punctually on the due date.

2. The total number of cognisable cases reported to the Police during the year under review was 6009, or 454 less than in the previous year. The decrease is attributed to prosperous seasons and increased activity on the part of the Police. Among heinous offences, a decrease of 12 and 23 cases is observed under murder and dacoity respectively and an increase under house-breaking and theft and kidnapping, while the number of cases under robbery remained the same. The striking decrease under dacoity was due mainly to the capture of a notorics criminal gang of Korachevs and to the adoption of ~~improved~~ precautionary measures.

3. Turning to the results of Police action generally, it must be said that a certain degree of deterioration is noticeable, even after allowance is

year may be mentioned the case known as the Gubbi murder case in which on the night of the 10th September 1902, four persons were murdered in cold blood in their very beds and property to the value of Rs 2000 was stolen. ~~It is unfortunate that the culprits were not traced and have escaped punishment.~~ Of the kidnapping cases may be mentioned those relating to the Bangalore City. On information received from the Surat Police, it was discovered that an organised gang for trafficking in girls existed undetected in the Bangalore City but it is however a matter of satisfaction that the local police successfully prosecuted most of the offenders to conviction.

4. The utility of the system of recording finger impressions continued to be illustrated by the results obtained during the year; but there is no doubt that there is much room for improvement as regards both the quality and the extent of the anthropometrical work done by the Department.

5. The continued neglect on the part of several of the District Police Officers to enforce the preventive provisions of the Criminal Procedure Code is disappointing. Only 48 cases involving 59 persons were prosecuted under the said provisions throughout the

State, as against 105 cases involving 174 persons in the previous year. Other forms of preventive work seem also to have been neglected. The Inspector-General of Police is requested to insist on the necessity for increased attention to this important subject on the part of the Police Officers concerned.

Among the preventive measures adopted may be mentioned the arrest of a number of Khandaris who were concerned in the commission of a well-known temple dacoity at Cape Camarin and who being ~~forced~~ found under suspicious circumstances in Mysore were ~~sentenced to various terms of imprisonment~~ imprisoned for failing to give security for good behaviour. ~~In this connection,~~ the Government are glad ~~to note of the ready co-operation between~~ that in this case the Mysore and the British Police readily cooperated. In this connection the Government are glad to ~~note~~ observe with approval that Mr.Madia also is alive to the importance of ~~in favour of the suggestion that by~~ a system of granting lands on easy terms ~~it is possible~~ to induce the criminal tribes in Mysore to settle down as peaceful agriculturists.

6. ~~221~~ Two hundred and twenty one cases under the Arms Regulation and 16 under the Game and Fish Preservation Regulation, were prose-

cuted during the year and convictions were obtained in 197 and 10 cases respectively.

7. There was a slight improvement (17 and 21.8 against 19 and 19.2) in the investigation work done by Amildars and Police Inspectors; but that of the District Police Officers, especially in heinous offences, is, as observed by the Inspector-General, susceptible of much improvemen

8. The actual strength of the force during the year was 860 officers and 4560 men, of whom 97.4 and 49.3 per cent respectively were literate. The percentage of officers and men departmentally punished increased from 25.4 to 28.7, which is perhaps indicative of better control and closer supervision.

9. The total cost of the department increased from ₹ 9,62,958 to ₹ 10,11,37 the increase being chiefly due to the supply of full clothing and accoutrement to the Police Force and of swords to Inspectors and Chief Constables. While the average cost of a policeman in Mysore (₹ 186-9-7) is less than the cost in Madras and Bombay, at the same time it is observed that the proportion of the Police to the population is higher in Mysore (1 to 1042) than in Madras (1 to 2146) and in Bombay (1 to 1109)

Bengal (Nos 5-209.)

10. The subject discussed in paras 118 to 120 of the Report, namely the insufficient provision of accomodation to the Police in moffussil stations, should form the subject of a separate reference to Government.

11. The inspection work of the District Police Officers of Mysore, Shimoga, Kadur and Chittaldroog requires improvement; that of the others was good on the whole. The Inspector-General was himself on circuit for about three months in all; and now that he has an office Assistant to help him, Government have little doubt that his tours of inspection will be even more frequent and productive of good results.

12. The year's work seems on the whole well satisfactory.

Secretary.
